Cairn Hill mining contract letter of intent issued

IMX Resources announced on 4 November that Exact Mining Services has been awarded a Letter of Intent for the mining operations at Cairn Hill.

The mining contract is for an initial thirty six (36) month period with the ability for both IMX and Exact Mining Services to negotiate contract extensions.

The mining contract incorporates load and haul of ore and waste, drill and blast and crushing activities.

Transport of ore from the mine site to the Rankin Dam Rail Siding will be carried out by a separate haulage contractor.

It is expected that the

workforce for Exact Mining Services will require between 50 and 70 personnel for the initial 12 months of operations.

The work roster initially will be based on the industry standard 12 hour shift - 2 week on 1 week off.

Mobilisation and site establishment activities are pending the final statutory approvals and are planned to commence late November to early December 2008.

The initial 3-6 month start-up period will require experienced plant operators.

After which IMX and Exact Mining Services will

start to look at less experi-

enced applicants for training purposes and employment.

IMX and Exact Mining Services are committed to assisting Coober Pedy residents and Antikarinja to capitalise on employment opportunities for the mutual benefit of Coober Pedy, the Antikarinja community, and the Cairn Hill Mine.

Please contact Dave Kennewell at Exact Mining Services on 08 8352 9000 for employment and other opportunities related to Cairn Hill or Steve Staines, Support Services Manager of IMX Resources on 0407

897 808 for general information on the operation.

For more information contact Steve Staines on 08 8672 5579 or [sstaines@imxres.com.au](mailto:ssstaines@imxres.com.au)
